

IV INTERNATIONAL AUTISM CONFERENCE Abu Dhabi UAE

Learning Programs in AI, Health & Neurodiversity

The bootcamp learning programs are designed to empower leaders, innovators, and developers to responsibly leverage Artificial Intelligence in healthcare, autism support, and inclusive digital ecosystems. From strategic decision-making to scalable technologies, we bridge AI, data, cybersecurity, and human-centered health innovation

About The Event

The **IV International Autism Conference 2026** will be held on April 25–28, 2026, at the Abu Dhabi Energy Center in the United Arab Emirates.

Held under the patronage of H.H Sheikh Khalid Bin Zayed Al Nahyan, this conference brings together global experts, professionals, innovators, and families to address autism spectrum disorder through six key pillars: healthcare, education, research, community integration, innovation & AI, and inclusive workplaces. Building on the success of its 2025 edition, the 2026 event will feature scientific sessions, workshops, AI bootcamp, and an innovation exhibition showcasing cutting-edge autism solutions.

The conference will feature

- A major innovation exhibition showcasing cutting-edge technologies and solutions in autism care.
- Scientific sessions presenting the latest evidence-based research.
- Interactive discussions and visual presentations.
- Hands-on workshops led by international experts.
- A global media campaign supporting children with autism and their families.
